

Adolescent RISE

Thursday, February 20, 2025 5-6:30pm

Virtual via Zoom: *Link will be sent upon registration*

Adolescent RISE is a presentation that takes a fun and informative look at the developmental period of adolescence (ages 10 - 25). It includes debunking myths about adolescence, understanding the four qualities of adolescence (risk taking, identity formation, social reorientation, and emotional intensity), and learning about the teenage brain. With this foundation established, ways to better support our kids will be discussed.

Presented by

Nicholas Thompson

Licensed Clinical Social Worker
